Fagor appliances rendered with autokitchen® software

Fagor, the world leader in induction cooktop technology & supplier of energy efficient consumer appliances, announced that the complete Fagor Appliance CAD file catalog has been published within the newest release of autokitchen® software.

This development now provides the design community the tools necessary to plan complete Fagor Kitchen renderings for clients that are of the highest photorealistic quality in a matter of minutes.

The newest release of autokitchen® will feature a complete assortment of Fagor induction, gas & radiant cooktops, dishwashers, refrigerators, convection ovens, ventilation hoods, coffee machines, washing machines & dryers.

“The availability of Fagor’s complete catalog in 3D on autokitchen® offers designers the easiest way to integrate Fagor products into any kitchen rendering, in- turn allowing clients to completely visualize our innovative & energy efficient designs at work in their homes” said Sara De La Hera, Vice President of Sales & Marketing for Fagor America. “We’re excited to be able to further develop our relationship with the design community in this way.”

autokitchen® generates detailed and professional-looking plans, elevations, and perspectives. User's can additionally generate renderings of projects with specific textures and finishes, lights, and reflections that will enhance presentations to clients.

In addition, from within autokitchen®, designers can generate a project list of all elements placed in the design along with references, dimensions, brief descriptions and any modifications or options applicable to each.

autokitchen®'s ease of use, output quality and DWG format allows designers to work faster and communicate better with clients and other professionals engaged in kitchen design projects such as builders, architects, installers and cabinet and appliance suppliers.

About Fagor America Inc.

Fagor America Inc, headquartered in Lyndhurst, NJ, USA is a wholly owned subsidiary of Fagor Electrodomésticos, Spain. The Fagor brand is currently marketed in 100 countries, employs more than 12,000 people in 17 countries and operates 16 factories in three continents. Fagor is the **worldwide leader in built-in induction cook tops**, the leading appliance manufacturer in both Spain and France and the fifth largest appliance manufacturer in Europe.

Present in the US since 1992 with high-quality stainless steel cookware as the core product offering, today Fagor's North American appliance line is distinguished for **outstanding product details constructed from the finest materials** that combine **energy efficiency** and **eco-friendly operational attributes**. The catalog consists of: induction, gas & radiant cooktops, refrigerators, **Energy Star Rated** dishwashers & washing machines, convection ovens, coffee machine & range hoods.

Fagor is a member of the **US Green Building Council** and their products have been consistently recognized for **innovations that consumers can depend on**. Fagor America is a 2009 recipient of the internationally recognized **Interior Design Best of Year Merit Award** for their Side Opening Convection Wall Ovens.
