FOR IMMEDIATE RELEASE:

The NKBA Teams Up With autokitchen®!

(Cresskill, NJ -- March 19, 2008) Microcad Software is pleased to announce that autokitchen® has been chosen by the NKBA as a software option for candidates taking their certification exams.

Beginning with the September 2008 exams, the NKBA will offer candidates the option of taking an exam using the traditional paper and pencil hand drafting approach or using a modified CAD program.

These candidates are testing to obtain NKBA certification status as a Certified Kitchen Designer (CKD), Certified Kitchen Educator (CKE), Certified Bath Designer (CBD), and/or Certified Bath Educator (CBE).

NKBA's new application form allows candidates to choose if they prefer hand drafting or software. If they choose software, the program will have certain features disabled, so as not to have an unfair advantage over candidates using hand drafting. Microcad Software has agreed to modify autokitchen® per the NKBA's requirements at no charge to the Association. The software will be offered to registered candidates free of charge.

The National Kitchen & Bath Association (NKBA) is a non-profit trade association that owns the Kitchen/Bath Industry Show & Conference (K/BIS®). With more than 42,000 members, the NKBA has educated and led the kitchen and bath industry for 45 years.

The mission of the NKBA is to enhance member success and excellence, promote professionalism and ethical business practices and provide leadership and direction for the kitchen and bath industry. For more information, please visit the NKBA Press Room at www.nkba.org/press or call (800) THE-NKBA.

Microcad Software is a subsidiary of Microcad Informatica. The company was created in 1987 to develop and market CAD software applications. Today, its autokitchen® program is the leading stand-alone kitchen design software built on an AutoCAD® engine. Since its introduction in 1998, autokitchen® has put the power and flexibility of AutoCAD® into the hands of thousands of designers, architects, builders, cabinetmakers and remodelers.

autokitchen® is proud to be able to help provide this alternative to exam candidates. For more information about autokitchen®, visit www.autokitchen.com or call 201-503-0435.
